Intended learning outcomes

KNOWLEDGE		
SYMBOL	DESCRIPTION	REFERENCE TO THE PROFILE OUTCOME
P_W1	In the frame-work of International Political Relations students are taught about International Relations as discipline of science and International Politics as part of it. They are getting knowledge about theory of IR and the most important international institutions as well as about processes taking place in contemporary world. The lectures concentrate on the most important issues of IP as security, globalization, invironmental and climate changes, human rights protection. Organizations of international integration [EU] and international security organizations [UN, NATO, ESCE] are also in the program of teaching. Student has a basic knowledge about diplomacy as instrument of foreign policy and international politics. That knowledge consists of general informations related history of diplomacy, basic informations about theory of international relations and diplomacy. Student has orientation about the most important cases of diplomatic activity, peace and war negotiations included. Student is able to understand the specificity of diplomatic functions and some cultural and psychological aspects od diplomatic mission. Students are obliged to prepare e-presentations and written homework topics.	Pol_WK03
SKILLS		
SYMBOL	DESCRIPTION	REFERENCE TO THE PROFILE OUTCOME
P_U1	Sudent should be able to utilize the knowledge in order to understand and correctly interpretes international procesess and problems. Thet relates especially to current and the most important problems of the world as international security, global economy and globalization process. Students have to realized that International Relations [and International Politics as part of IR] is scientific discipline which is giving scientic instrument to analize and study global procesess, security threats, and problems. That gives students background to deepen studies on IR and to make choice about their future. That particularly relates to diplomacy as important instrument of IP, crisis manegement mean but also as interesting way of professional carrier for young people.	Pol_UW01 Pol_UW02 Pol_UW03 Pol_UW04

SOCIAL COMPETENCES

SYMBOL	DESCRIPTION	REFERENCE TO THE PROFILE OUTCOME
P_K1	Students are taught to have capacity of critical assessment of international political environment and the directions of its development. In such a way getting some professional knowledge the lectures and exercises participants are able to understand better the value of scientific information, logical thinking and capacity to analyse the problems. Students hopefully should have capacity to appreciate IR science to better understand world development processes but also conflicts and political, economical and cultural clashes in contemporary world. One of the aims of IR and IP teaching is to show students the way of professional carrier as political experts, diplomats and political processes analysts, useful to describe domestic and international reality as part of social commitments of profession.
